

Annual Fall General Meeting August 2019

Treasurer's Report: Jim Marzeski reviewed the budget and encouraged all to join Amazon Smile...a simple way to generate an additional monthly income. Budget attached.

Secretary's Report: In Susan's absence Barb Sluyter took over. Karen Dombrowski was called upon to give a membership report. She asked everyone to reach out to friends and neighbors to join. Membership dues are crucial to the future of CLIA.

Lake Steward Program: Ryan Fagan reported that the program is running smoothly and the stewards are inspecting 90% of all boats entering our lake. A container of water chestnuts was passed around to enlighten home and boat owners of their significance.

Boat Washing Station: CRISP has provided a worker to run our boat washing operation so that is finally up and running.

Sewer Plan Discussion: Put on hold.

Golf Tournament: Sponsorship was exceptional this year. Talk of moving the event to a large 18 hole facility allowing more tournament worthy prizes at the same time elevating the status of the event.

Annual Summer Picnic: Rita reported the event was very successful even though the numbers were down slightly.

Harmful Algae Review & CSLAP: Matt reported that harmful algae blooms are driven by 3 things: 1) bacteria strains 2) nitrates and phosphorus and 3) climate change. Children and pets are at greatest risk and we should err on side of caution whether its safe to swim. DEC divers met with Brett, Matt and Brian to access the problem.

New Zones and Captains: Lake zones were reorganized this year and broken down to 5 zones instead of _____. A zone captain was elected for each new zone. Their job was to organize a meet and greet get together to address each particular zone's issues and concerns as well as promoting membership and comradery.

Thank You: Plaques were presented to outgoing board members Blake Williams, Barb Sluyter and Ryan Fagan for their service to the Board.

Open Comments: How to curb the growth of starry stonewort. Currently there are only 3 way 1) home harvest 2) machine harvest, and 3) benzo mats. Starry Stonewort is currently choking out the fish population.

Meeting was adjourned at 10:00.

Respectfully submitted,

Barbara Sluyter
Secretary Pro Temp
